No. 1

Editorial

Clinical chemistry as a medical discipline: *Poul Astrup* 1

Clinical Chemistry

The application of the Reaction Rate Analyser LKB 8600 as an automatic coagulometer: *Ib Andersen & Sixtus Thorsen* 7
Determination of coagulation factors (II–VII–X) and kaolin partial thromboplastin time by the LKB 8600 Reaction Rate Analyser: *Britta Hjorth & E. Kjærsgaard* 15
Normal values for free light chains in serum in different age groups: *K. Sølling* 21
The degree of bone mineralization in different parts of human skeleton estimated from bone phosphorus/hydroxyproline: *L. Tougaard, S. Buhl & H. Poulsen* 27
Mass fragmentographic demonstration of low amounts of β-phenylethylamine in human urine: *H. Andersen & C. Bræstrup* 33

Clinical Physiology

A simple method for the estimation of glomerular filtration rate: *Torgny Groth & Bertil Tengström* 39
Application of the gamma function for the calculation of effective renal plasma flow by [^{131}I]-hippuran clearance: *H. Olkkonen, I. M. Penttilä & A. Uimarihuhta* 49
The effect of inactivity on reactive hyperaemia in the human calf: a study with strain gauge plethysmography: *A. J. Kroese* 53
Tilted and non-tilted postischaemic exercise peak flow in the legs of normal human subjects: *Bent Neubauer* 59
Effect of body position on circulatory adaptation to exercise in patients with essential hypertension: *Sture Bevegård & Mats Danielson* 63
Closure of digital arteries in high vascular tone states as demonstrated by measurement of systolic blood pressure in the fingers: *B. Krähenbühl, S. L. Nielsen & N. A. Lassen* 71
Effects of local thrombinaemia and endotoxinaemia on hepatic circulation in the anaesthetized dog: *M. Hellgren, P. Olsson & L. Thulin* 77
The heat production in energy-depleted erythrocytes induced by glucose, inosine and adenine: *J. Grarup, E. Hasselager & M. Hjelm* 85

Technical Notes

Reference values for fibrinogen concentration and inhibitors of fibrinolysis: *Kenneth Try* ... 89
A unified method for the determination of gold in biological fluids by flameless atomic absorption spectroscopy: *Susanne Møller Pedersen & Pernille Møller Graabæk* 91

No. 2

Editorial

How seals avoid myocardial infarction during diving: *John K. Kjekshus & Arnoldus Schytte Blix* 95

Clinical Physiology

Plasma renin activity, angiotensin II, and aldosterone during the hypnotic suggestion of running: *K. J. Kosunen, K. Kuoppasalmi, H. Näveri, S. Rehunen, S. Närvänen & H. Adlercreutz* 99
The influence of age on reactive hyperaemia in the human calf: a study with strain gauge plethysmography: *A. J. Kroese* 105
Reactive hyperaemia in the calf of trained and untrained subjects: a study with strain gauge plethysmography: *A. J. Kroese* 111
Determination of lower leg blood flow in man by thermodilution: *Dag Sørlie & Kjell Myhre* ... 117
Inhibition of furosemide-induced natriuresis by acetylsalicylic acid in dogs: *Knut Joachim Berg & Dieter Loew* 125
Creatinine clearance, urinary excretion of glomerular basement membrane antigens and renal histology in congenital nephrotic syndrome of Finnish type: *Niilo-Pekka Huttunen* ... 133
Effect of Verapamil on pancreatic glucagon release from the isolated perfused canine pancreas: *Kjeld Hermansen & Johan Iversen* 139
Cigarette smoking and maximal oxygen consumption rate in humans: *Thorsten Ingemann-Hansen & Jens Halkjær-Kristensen*... 143

Clinical Chemistry

A rapid and precise sequential saturation radioimmunoassay for thyroxine: *V. Kruse & O. Lind* 149
Radioimmunoassay of secretin in plasma: *O. B. Schaffalitzky de Muckadell & J. Fahrenkrug* ... 155
Peroxidase activity in human granulocytes, inter- and intra-individual variations: *Axel Brock* 163
Urinary excretion of albumin and β_2-microglobulin in a population from an area where Balkan nephropathy is endemic: *F. Anders Karlsson & Rodica Lenkei* 169
Studies on the pre-α-lipoprotein of human serum. I. Characterization of an albumin-containing lipoprotein: *Leif E. Wille* 175
Free choline in human plasma analysed by simple radio-enzymatic procedure: age distribution and effect of a meal: *Sven-Åka Eckernäs & Sten-Magnus Aquilonius* 183

Technical Note

Effect of storage conditions of serum lipoproteins on electrophoretic mobility in agarose gel and on lipid composition: *Fiona C. Ballantyne, D. Ballantyne & Kerstin Carlson*... 189

No. 3

Editorial

High density lipoprotein and coronary heart disease: *Ole D. Mjøs* 191

Clinical Physiology

On the theory of an intravenous isotope method for cerebral blood flow measurements: *B. W. Nilsson, G. Rikner & M. Wolgast* 195
The validity of an intravenous isotope method for cerebral blood flow measurements. An experimental study: *B. W. Nilsson, G. Rikner & M. Wolgast* 201
The mechanism of orthostatic and haemorrhagic fainting: *L. Bergenwald, U. Freyschuss & T. Sjöstrand* 209
Effects of corticotrophin and choriogonadotrophin on urinary cyclic adenosine 3′,5′-monophosphate: *K. Raij* 217
Increased transcapillary escape rate of albumin and IgG in essential hypertension: *H.-H. Parving, H. Æ. Jensen & M. Westrup* 223
Forearm glucose uptake during glucose tolerance tests in chronic alcoholics: *Ragnar Hed, Lars Erik Lindblad, Arne Nygren & Lars Sundblad* 229
Effects of different doses of acetylsalicylic acid on renal oxygen consumption: *Knut Joachim Berg & Anstein Bergan* 235

Clinical Chemistry

Serum lipid and latent coronary insufficiency: *J. Erikssen & S. Skrede* 243
High density lipoprotein (HDL) and physical activity: the influence of physical exercise, age and smoking on HDL-cholesterol and the HDL-/total cholesterol ratio: *Sven Chr. Enger, Kirsten Herbjørnsen, Jan Erikssen & Arne Fretland* 251
Binding of bilirubin and long-chain fatty acids to human serum albumin with general remarks on displacement of firmly bound ligands: *R. Brodersen & L. Funding* 257
Glucose tolerance in relation to skeletal muscle enzyme activities in cancer patients: *Kent Lundholm, Ann-Christin Bylund & Tore Scherstén* 267
Production of Methotrexate antiserum in rabbits: the significance of immunogen solubility, hapten content, and mode of administration on the antibody response: *Jørn Hendel & Lydia J. Sarek* 273

Technical Note

A new principle for simplified and continuous counting of radioactive samples: enclosure between adhesive tapes: *H. J. G. Gundersen & H. Ørskov* 279

No. 4

Editorial

Renal arterial diameters and microspheres: *Jarle Ofstad* 283

Clinical Physiology

Effect of sodium salicylate and acetylsalicyclic acid on epicardial ST-segment elevation during coronary artery occlusion in dogs: *Harald Vik-Mo & Ole D. Mjøs* 287
The significance of body sodium content in hypertension following renal transplantation: exchangeable sodium and plasma renin concentration before and after renal transplantation: *H. J. Kornerup* 295
Effect of acute infectious disease on isometric muscle strength: *Göran Friman* 303
Synthesis of muscle glycogen during recovery after prolonged severe exercise in diabetic and non-diabetic subjects: *S. Mæhlum, A. T. Høstmark & L. Hermansen* 309
Fat cell size and blood lactate in humans: *P. B. Vendsborg & N. Bach-Mortensen* 317
Long-term reproducibility of bone mineral content measurements: *C. Christiansen & P. Rödbro* 321
Insensible perspiration from the skin under standardized environmental conditions: *L.-O. Lamke, G. E. Nilsson & H. L. Reithner* 325

Clinical Chemistry

Effect of sites for blood sampling in determination of the galactose elimination capacity: *N. Tygstrup* 333
Alpha-1-antitrypsin (Pi) phenotypes in a Finnish population: *P. Arnaud, J. Koistinen, G. B. Wilson & H. H. Fudenberg* 339
Comparison of the reactions of neutral granulocyte proteases with the major plasma protease inhibitors and with antiplasmin: *K. Ohlsson & D. Collen* 345
Identification of glutamine as a hepatic factor which influences the synthesis of collagen by freshly isolated fibroblasts: *T. Rönnemaa, T. Vihersaari & H. Ranta* 351
Urinary excretion of position isomers of penta- and hexa-carboxylated porphyrins belonging to the isomer III series in a case of congenital erythropoietic porphyrin: *Leif Eriksen & Nora Eriksen* 357
Folate binding by human milk protein: *S. Ingemann Hansen, J. Holm & J. Lyngbye* 363
Parathyroid hormone in serum during lithium therapy: *J. Lanng Nielsen, M. Sanvig Christensen, E. B. Pedersen, S. Darling & A. Amdisen* 369
Determination of serum proxiphylline by high-pressure liquid chromatography: *K. Selvig & K. S. Bjerve* 373

No. 5

Editorial

On the selection of *in vitro* thyroid function tests: *Kristian Liewendahl* 379

Clinical Chemistry

Principles of albumin and IgG analyses in neurological disorders. I. Establishment of reference values: *G. Tibbling, H. Link & S. Öhman* 385
Principles of albumin and IgG analyses in neurological disorders. II. Relation of the concentration of the proteins in serum and cerebrospinal fluid: *H. Link & G. Tibbling* 391
Principles of albumin and IgG analyses in neurological disorders. III. Evaluation of IgG synthesis within the central nervous system in multiple sclerosis: *H. Link & G. Tibbling* ... 397
Determination of a new rapid plasma inhibitor in human blood by means of a plasmin specific tripeptide substrate: *A.-C. Teger-Nilsson, P. Friberger & E. Gyzander* 403
Inhibition of branched-chain amino acid degradation by ketone bodies: *Sverre Landaas* ... 411
Metabolic studies on normal and pyruvate dehydrogenase deficient cultured human fibroblasts: *Olav Borud & Johan H. Strømme* 419

Clinical Physiology

Plasma renin activity, angiotensin II, and aldosterone after mental arithmetic: *K. J. Kosunen* ... 425
Circadian rhythm of plasma aldosterone and plasma renin activity in steroid and non-steroid treated kidney transplanted patients: *K. Ølgaard, S. Madsen, J. Roosen & M. Hammer* ... 431
Increased plasma cyclic AMP concentrations in fasting man: *O. D. Mjøs, H. Vik-Mo, T. Henden & H. Wang* 439
Ethanol effects of substrate utilization by the human brain: *A. Juhlin-Dannfelt* 443
Studies on methods for determination of the distribution of cardiac output in the mouse: *S. Wetterlin, K. F. Aronsen, I. Björkman & I. Ahlgren* 451
Forearm and splanchnic blood flow at rest and during exercise in relation to the systemic arteriovenous oxygen difference in cardiac patients: *Birger Hesse, Henrik Lund-Jacobsen & Jørgen Fischer Hansen* 455
Microphotometry of single fibres from the quadriceps muscle in man: *Jens Halkjær-Kristensen & Thorsten Ingemann-Hansen* 461
Relation between zinc content in saliva and blood in healthy human adults: *A. Mathur, K. Wallenius & M. Abdulla* 469

No. 6

Editorial

The skin microcirculation and the pathogenesis of ischaemic necrosis and gangrene: *Bengt Fagrell* 473

Clinical Physiology

Studies on renal tubular reabsorption: partial and near complete inhibition by certain amino acids: *C. E. Morgensen & K. Sølling* 477
Kinetics of ethanol inhibition of galactose elimination in perfused pig liver: *S. Keiding, S. Johansen & K. Tønnesen* 487
Carotid baroreceptor function in hypertensive patients: *Sture Bevegård, Jans Castenfors & Mats Danielson* 495
The effect of mexiletine on the electrophysical properties of the intact human heart: *R. W. Harper, S. Bertil Olsson & Ed Varnauskas* 503
A method for the assessment of placental blood perfusion using ^{99m}Tc pertechnetate: *S. Suonio & H. Olkkonen* 509
Alteration of plasma hypoxanthine concentration during ischaemia in the forelimb of the pig: *O. D. Saugstad, A. Kroese, H. O. Myhre & R. Andersen* 517

Clinical Chemistry

Relationships between blood pressure, age, plasma renin activity and electrolyte excretion in normotensive subjects: *Bengt E. Karlberg & Kerstin Tolagen* 521
Pre-treatment of serum samples for immunonephelometric analysis by precipitation with polyethylene glycol: *K. Hellsing & H. Enström* 529
A radioimmunoassay of the pregnancy-specific β_1-glycoprotein (SP_1): *S. Sørensen, Birgit Borggaard & Lene Rolff* 537
Studies on the pre-α-lipoprotein of human serum: *Leif E. Wille, Harald Torsvik, Peter Kierulf & Egil Gjone* 545
A method of determining lipoprotein-lipase activity in human adipose tissue: *Hans Lithell & Jonas Boberg* 551
Activation of creatine kinase activity in lyophilized control materials: *Ø. Hetland & P. K. Lund* 563

Clinical Chemistry

Adenine metabolism in man. I. After intravenous and peroral administration: *Carl-Hendric de Verdier, Åke Ericson, Frank Niklasson & Mats Westman* 567
Effect of short-term treatment with an anabolic steroid (methandienone) and dehydroepiandrosterone sulphate on plasma hormones, red cell volume and 2,3-diphosphoglycerate in athletes: *K. Remes, P. Vuopio, M. Järvinen, M. Härkönen & H. Adlercreutz* 577
Characterization of high density lipoproteins in human cholestasis: *B. Arnesjö, B. Danielsson, R. Ekman, B. G. Johansson & B. G. Petersson* 587
Serum lipids and lipoproteins during abstinence after heavy alcohol consumption in chronic alcoholics: *Sven Wallerstedt, Anders Gustafson & Rolf Olsson* 599
Fetomaternal relationships of serum bile acids in uncomplicated pregnancy: *Timo Laatikainen* 605

Clinical Physiology

The influence of ethanol on human splanchnic and skeletal muscle metabolism during exercise: *L. Jorfeldt & A. Juhlin-Dannfelt* 609
Effect of heparin on the substrate utilization during prolonged exercise: *Gunvor Ahlborg & Lars Hagenfeldt* 619
Precision of single injection [^{51}Cr]EDTA plasma clearance and endogenous creatinine clearance determinations in children: *J. Brøchner-Mortensen, K. Rohbrandt & R. B. Lauritzen* ... 625
Single injection [^{51}Cr]EDTA plasma clearance determination in children using capillary blood samples: *J. Brøchner-Mortensen & J. Christoffersen* 631
Renal blood flow in cirrhosis: relation to systemic and portal haemodynamics and liver function: *H. Ring-Larsen* 635
Increased transcapillary escape rate of albumin in patients with cirrhosis of the liver: *H.-H. Parving, L. Ranek & N. A. Lassen* 643
Skin perfusion pressure measured as the external pressure required to stop isotope washout. Methodological considerations and normal values on the legs: *P. Holstein, P. Lund, B. Larsen & T. Schomacker* 649
Lateral-hole catheters compared with shielded-hole catheter systems in oesophageal manometry: *G. Sundström & U. Ulmsten* 661

Technical Note

Methods for the calculation of weight loss by water evaporation from small biopsy specimens: *E. H. N. Oakley* 667

No. 8

Clinical Physiology

Immunoglobulins, complement and lysozyme in leg lymph of normal men: *W. L. Olszewski, A. Engeset & H. Lukasiewicz* 669
Effects of withdrawal and reinfusion of blood on limb circulation at rest and during contralateral isometric handgrip: *Lennart Bergenwald, Brita Eklund & Ulla Freyschuss* 675
Effect of acute blood volume variations in man on the circulatory response to isometric handgrip: *Lennart Bergenwald, Brita Eklund & Ulla Freyschuss* 683
Extracellular fluid volume determined by a single injection of insulin in men with untreated essential hypertension: *H. Lønsmann Poulsen, H. Æ. Jensen & H.-H. Parving* 691
Distribution of coronary blood flow during acute coronary occlusion in dogs. Effect of nicotinic acid and sodium salicylate: *Harald Vik-Mo* 697
Comparison of the effect of glucose and fructose on the recovery of the heart preparation: *P. Kettunen* 705
Increase in renal blood flow in acute renal failure following intra-arterial infusion of acetylcholine: *Jørgen Ladefoged* 709

Clinical Chemistry

Urinary cyclic adenosine 3′,5′-monophosphate excretion in children of short stature: effect of somatotropin: *K. Raij, J. Perheentupa & M. Härkönen* 713
Serum tyrosine within the first hour after an oral load of phenylalanine: *Flemming Güttler & Gert Hansen* 717
Unsaturated and cobalamin saturated transcobalamin I and II in normal human plasma: *Ebba Nexø & Jørgen Andersen* 723
Radioimmunoassay of thyroxine and triiodothyronine in urine using extraction and separation on Sephadex® columns: *P. Rogowski & K. Siersbæk-Nielsen* 729
Radioimmunological determination of reverse triiodothyronine in unextracted serum and serum dialysates: *Peter Laurberg & Jørgen Weeke* 735
An analysis of data on human hepatic bile. Relationship between main bile components, serum cholesterol and serum triglycerides: *W. van der Linden & F. Bergman* 741
Isolation and partial characterization of a glycine- and serine-rich polypeptide from human serum high-density lipoproteins (HDL): *S.-O. Olofsson, G. Fager & A. Gustafson* 749

Physical activity 251
Physical condition 111
Physical working capacity .. 143
Placental blood flow 509
Plasma 89, 469
Plasma activated partial thromboplastin time 7
Plasma coagulation factors (II+VII+X) 7
Plasma concentration 567
Plasma cyclic AMP 439
Plasma hypoxanthine 517
Plasma renin concentration. 295
Plasma volume 691
Plasma volume/interstitial fluid volume 691
Plasmin 403
Plaster cast 53
Plethysmography 455
Polyacrylamide gel electrophoresis 545
Polyethylene glycol 529
Polypeptide 749
Polyphloerthrin phosphate .. 77
Popliteal/distal femoral vein. 117
Population genetics 339
Porphyrin, biosynthetic pathways 357
Porphyrinogens 357
Post-ischaemic vasodilation. 53, 105, 111
Posture 59
Precipitation 529
Precision 321, 625
Prediction of maximal oxygen uptake 143
Pregnanetriol 217
Pregnancy-specific β_1-glycoprotein 537
Pre-α-lipoprotein 175
Preparative electrophoresis . 175
^{3}H-Proline 351
Proteins 669
Proteins, molecular weight .. 363
Proteinuria 169, 477

Page

Proxiphylline 373
Pulmonary artery pressure .. 63

Radio-enzymatic analysis ... 183
Radioimmunoassay 149, 155, 169, 273, 279, 537, 729, 735
Radioisotopes 509
Radioisotope renography ... 49
Radioligand assay 729
Reaction Rate Analyser 8600 7
Reaction Rate Analyser RKB 8600 15
Recovery after exercise. 309, 385
Redistribution of cardiac output 455
Reference values 243, 385
Regression analysis 39
Renal blood flow . 125, 235, 709
Renal excretion 567
Renal oxygen consumption . 235
Renin activity 431
Reproducibility .. 321, 625, 631
Resuscitation 705
Reverse T3 735
Rubidium 451

Saliva 469
Sample changer 279
Sampling 333
Schizophrenia 33
Secretin 155
Sequential saturation 149
Serine 749
Serum albumin 257, 635
Serum cholesterol 243
Serum lipids 243
Serum potassium 99, 425
Serum proteins 391
Serum sodium 99, 425
Serum triglycerides 243
Single injection 39
Single-point method 39
Skeletal muscle .. 303, 309, 609
Skeletal muscle enzymes 267
Skeleton 27
Skin blood pressure 649
Slope-intercept method 39
Smoking 251
[^{125}I]sodium iothalamate ... 39
Sodium salicylate 287, 697
Somatotropin 713
Somatotropin deficiency 713
Splanchnic vascular resistance 455
Spongy bone 27
